## CLEARSHIELD ULTRA

### THE ULTIMATE SOLUTION TO YOUR NEEDS

ClearShield Ultra is a **new** revolutionary two component water-based system that protects digitally printed surfaces like never before. The easy to apply coating also provides UV protection, chemical and abrasion resistance for a wide variety substrates. Ultra is designed to be hand applied and/or with liquid laminators such as the StarLam 1600R with non-water sensitive media and ink.

### PROPERTIES

- State-of-the-Art UV Inhibitors
- For use on both latex and UV inks
- Protects from abrasion and marring
- Highly Flexible and Chemically Resistant
- Non-Yellowing
- Enhances Color
- Available in Gloss & Matte

### APPLICATIONS

- Signage
- Billboards
- Vinyl
- Banners

### APPLICATION METHODS

- Manual or Hand Application
- Liquid Laminators such as the StarLam

### ABOUT MARABU
